ABOUT ME

Date of birth: 20 June 2004 **Nationality:** Pakistani

Computer Science student (6th Semester) at Riphah International University with strong skills in Python programming, web development, and data handling. Experienced in developing small-scale projects and currently learning Machine Learning and Algorithms through self-practice. Passionate about technology, problem-solving, and continuous learning. Seeking a part-time or remote opportunity to gain practical experience and contribute effectively to a professional team.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

RIPHAH International University, Faisalabad.

2023 – 2027 (*In Progress*)

PROJECTS

- **Student Management System (Python):** Built a program to manage student records (add, update, delete)
- **AI Game Engine — Connect Four (Python):** Developed an intelligent Connect Four game engine in Python featuring Minimax with Alpha-Beta Pruning, Monte Carlo Tree Search (MCTS), and a Dynamic Difficulty Adjustment system. Implemented Zobrist Hashing for transposition table caching, achieving 30–60% reduction in nodes evaluated, with a full Pygame GUI and automated tournament runner.
- **Portfolio Website (React.js):** Created a personal responsive portfolio website.
- **Machine Learning Practice:** Implemented linear regression & data preprocessing with Python libraries (NumPy, Pandas, Matplotlib, Scikit-learn)
- **Voice Assistant (Python)**
 - Developed a Python-based voice assistant named “NOVA” using Speech Recognition and Text-to-Speech technologies.
 - Implemented voice commands to open websites, play music, and respond to user interactions.
 - Used Python libraries including SpeechRecognition, gTTS, playsound, and webbrowser.
 - Improved understanding of automation, voice processing, and Python module integration.

SKILLS

- **Programming:** Python, JavaScript, C++ (Basic)
- **Web Development:** React App, HTML, CSS, JavaScript.

- **Databases & Tools:** MySQL (Basic), Git/GitHub, VS Code
- **Office Tools:** MS Excel, MS Word, Data Entry.
- **Machine Learning (Basic)**
